**SUBJECT: WESTINGHOUSE ELECTRIC COMPANY, LLC, CONVEYANCE OF REVISED
STANDBY TRUST AGREEMENT TO SUPPORT THE DECOMMISSIONING
FUNDING PLAN (ENTERPRISE PROJECT IDENTIFER L-2022-LLL-0019)**

Dear Patrick Donnelly:

We have reviewed your revised financial assurance instruments and an updated certification of financial assurance submitted by letter dated November 10, 2022 (Agencywide Documents Access and Management System [ADAMS] Accession No. ML22316A005). We approve the revised financial assurance instruments and updated certification of financial assurance. Specifically, we find that the dollar amount cited in the updated trust agreement is based on reasonable and documented assumptions, and that it reasonably estimates the cost, at this time, to decommission the facility, if necessary. Our signature of the revised document is enclosed.

U.S. Nuclear Regulatory Commission (NRC) staff evaluated information provided in the referenced submittal and compared the decommissioning funding reflected in the submittal against the latest Decommissioning Funding Plan (DFP) estimate provided in correspondence dated May 9, 2022 (ML22129A154). That DFP estimate was found to be acceptable to the NRC on September 28, 2022 (ML22259A179).

Decommissioning funding is being provided in the form of the following instruments as reflected in the recent submittal from Westinghouse:

- Cash and cash equivalents provided for in a Trust;
- Surety Bond, Berkley Insurance Company;
- Surety Bond Rider, United States Fire Insurance Company.

The cash position coupled with the surety bond mechanisms is adequate to meet the DFP estimate, and accordingly, staff finds that the licensee meets decommissioning funding

The enclosure transmitted herewith contains proprietary information. When separated from the enclosure this document is decontrolled.

P. Donnelly
