Re: Westinghouse Electric/Columbia Plant
Phase II Remedial Investigation Work Plan Addendum dated October 29, 2020
Richland County
Consent Agreement CA-19-02-HW
File # 51377

Dear Ms. Joyner:

The South Carolina Department of Health and Environmental Control (Department) has reviewed and approves the Phase II Remedial Investigation Work Plan Addendum. The Department noted that a VibraCore sampler will also be used to collect the sediment samples. The Department concurs with Westinghouse that the TAL metals and SVOCs be removed from all multi-media analyses moving forward. Westinghouse and the Department will conduct a meeting on January 7, 2021 to discuss the data that was collected and monitoring wells placement. If you have any questions, please contact me at kuhnkm@dhec.sc.gov or (803) 898-0722.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kimberly M. Kuhn".

Kimberly M. Kuhn, Project Manager
State Voluntary Cleanup Section
Division of Site Assessment, Remediation and Revitalization
Bureau of Land and Waste Management
