

## **Joel Eacker**

Senior Vice President, APX Projects EMEA

Joel Eacker is the senior vice president, APX Projects EMEA at Westinghouse Electric Company – overseeing the execution of AP1000® PWR projects and its derivative technologies across the Europe, Middle East and Africa.

Most recently, he served as vice president and project director for new AP1000 Nuclear Power Plant development in Poland and supported development programs for new nuclear reactors in the Ukraine, Slovenia, Bulgaria, the Netherlands, Sweden, Finland, India, the Czech Republic, the United Kingdom and the Kingdom of Saudi Arabia.

Mr. Eacker has over 40 years of programs, projects, business, operations and engineering experience in the nuclear, oil & gas, chemical, infrastructure and environmental industries. He held senior executive roles at JAE Project Management, E2 Program Management and Duratek Technical Services. Additionally, Mr. Eacker worked in leadership positions for nearly 15 years over his career at CH2M Hill in major programs, global commercial nuclear operations and program management, as well as nuclear waste management services.

He started his career as a U.S. Naval Officer operating nuclear reactors onboard USS Enterprise (CVN-65).

He earned a bachelor's degree in chemical and petroleum refining engineering from Colorado School of Mines and a master's of project management from Colorado State University. Mr. Eacker is a registered Professional Engineer, a certified Program Management Professional, and a certified Project Management Professional.
