

Luca Oriani

President

Long-term Operations

Westinghouse Electric Company

Dr. Oriani is President of Long-term Operations at Westinghouse Electric Company. In this role, he leads the development and delivery of innovative solutions across engineered solutions, instrumentation & controls systems, training & resource solutions, and parts that support the global operating fleet of nuclear power plants.

Most recently, Dr. Oriani served as Senior Vice President and Global Chief Engineering Services Officer, leading the enterprise engineering hub for Westinghouse and overseeing its global components manufacturing plants.

Dr. Oriani has worked at Westinghouse for over 22 years – starting as a senior engineer and advancing to leadership roles in engineering and licensing for operating plants and advanced reactor technology, including the design and completion of the first Westinghouse advanced AP1000® units in China and the U.S.

Dr. Oriani holds Doctorate and Master's Degrees in Nuclear Engineering from Polytechnic University of Milan in Italy.
