

Sean Jones

Vice President, APX Supply Chain

Sean Jones serves as Vice President, APX Supply Chain for Westinghouse Electric Company. In this role, he leads the global strategic direction of all internal and external supply chain and procurement activities for AP1000[®] PWR projects and advanced reactor technologies. Additionally, Mr. Jones oversees supplier strategy, commercial execution and delivery performance across a portfolio of complex, large scale nuclear new build programs worldwide.

Previously, Mr. Jones held successive leadership roles within the global supply chain organization, with a strong focus on AP1000[®] Supplier Performance, project delivery and international procurement management.

Prior to joining Westinghouse, Mr. Jones held leadership roles at Curtiss Wright Corporation, where he managed programs supporting the manufacturing and delivery of AP1000[®] reactor coolant pumps. He also previously served in mechanical engineering roles.

Mr. Jones began his career in the United States Marine Corps as a helicopter mechanic.

Mr. Jones holds a bachelor's degree in mechanical engineering and an MBA from the University of Pittsburgh.
