

Aziz Dag

Senior Vice President, APX Project Development

Aziz Dag is senior vice president, APX Project Development, at Westinghouse Electric Company. In this role, he is responsible for global new nuclear plant market, offer development and partnerships activities related to AP1000® PWR projects and other technology derivatives. Additionally, he oversees Westinghouse's Swedish legal entity in capacity of the country's managing director.

Mr. Dag has more than 30 years of successive leadership experience at Westinghouse across engineering, commercial and marketing roles. Most recently, he served as senior vice president of the Global BWR and VVER Nuclear Fuel business with responsibility for commercial integration, product management, sales and customer delivery. Previous leadership positions included oversight of Global Product Management within the Nuclear Fuel business unit and key accounts within the EMEA region – providing leadership and coordination of marketing and sales activities for key strategic opportunities in the EMEA region.

Mr. Dag earned a master's degree in engineering physics from Uppsala University and an MBA from Stockholm School of Economics, and an executive certification from INSEAD. He is also Six Sigma Black Belt Certified.
