

OptiLife® - Digital Work Management

CMIS®

Powered by NEW

Award-Winning bertha™ AI

Supercharge your engineering & operational intelligence!

The **Configuration Management Interface System (CMIS®)** is a powerful web-based suite of tools that helps you develop and manage engineering deliverables while achieving significant savings through labor reductions, more accuracy and automated data integration. Supercharged with the Westinghouse **nuclear-specific bertha™ AI Assistant**, CMIS streamlines engineering deliverables, licensing processes, and more.

Improve Engineering Efficiency

CMIS allows your engineers to focus on what they do best by driving procedural adherence.

Automate Processes & Reduces Errors

Integrating with utility data sources and processes to automate tedious manual processes.

AI Nuclear Expert

Let bertha™ instantly generate an AI nuclear expert from your data.

Modular Agentic Framework

bertha™ is adaptable and scalable, designed to grow with you.

**Take the
first step now.
Request a demo.**

Enhance collaboration, accelerate workflows and realize incredible new value for your engineering team.

Westinghouse

CMIS®
Software Suite

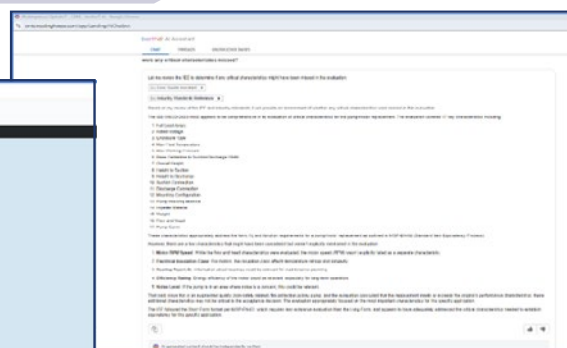

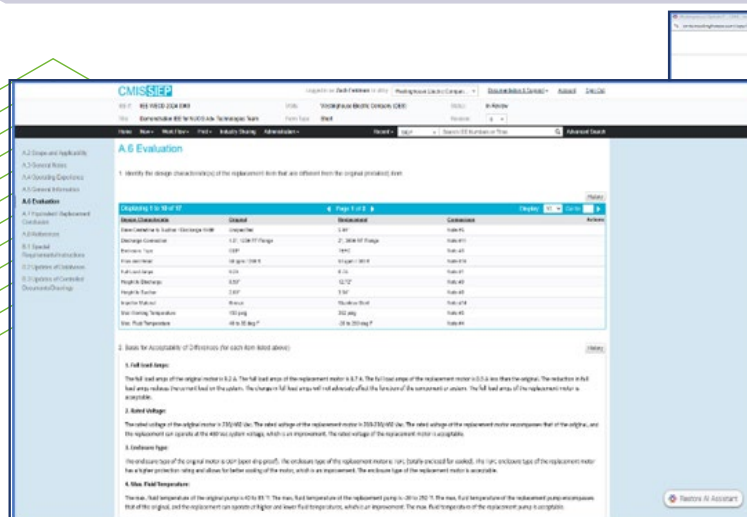

CMIS Base Package, now powered by bertha™ AI Assistant

- **CMISDP** - Engineering Changes, implementing IP-ENG-001
- **CMIS SIEP** - Item Equivalency Evaluations, implementing NISP-EN-02

The configurability of CMIS supports the development of utility-specific modules

Customer-Configured Modules

- **CMIS Closure** - Post-mod document closeout
- **CMIS Licensing** - 10CFR50.59/72.48
- **CMIS CALC** - Engineering calculation notes
- And more digitalized engineering processes
