

Westinghouse Export Control Visitor Agreement

In the course of your proposed visit, you may have access to certain information or technology that is not publicly available information concerning the design, construction, maintenance, repair, overhaul, refurbishment or operation of a nuclear reactor, including nuclear reactor development, production or use of the components within or attached directly to the reactor vessel, the equipment that controls the level of power in the core, and the equipment or components that normally contain or come in direct contact with or control the primary coolant of the reactor core, and technology for the development, production, or use of equipment or material especially designed or prepared for use with a nuclear reactor or nuclear power plant.

Access to such information is subject to the export control laws and regulations of the country of the Westinghouse site that you are visiting. By entering a Westinghouse location, you agree to comply with all applicable export controls and will not subsequently transfer any export-controlled information without prior written approval of Westinghouse.
