

Benefits of Participation in the PWROG Licensing Committee

Membership and participation in the PWROG Licensing Committee (LSC) has many benefits:

- Creating relationships with Licensing staff at other facilities
- Recognition as a leader in your field.
- Professional growth opportunity, expand your horizon beyond Regulatory issues.
- Opportunity to influence the professional development of the next generation.
- Opportunity to give back to your industry.
- Develop relationships with the regulator beyond the Regional staff and your own NRR PM.
- Develop relationships with industry vendors and consultants.
- Obtain updates on important regulatory issues at the PWROG meetings, held three times a year
- Participating in the industry round-table discussions three times a year, providing a forum to discuss topics of interest to the member and the utility with the rest of the PWROG LSC community
- Use of group e-mail distribution lists, providing rapid access to all of the LSC members.
- The ability to stay informed on and influence industry actions on a range of regulatory issues through the PWROG participation in the Technical Specifications Task Force, the NEI Licensing Action Task Force, the NEI Regulatory Issues Working Group, and other industry committees
- Access to technical support that is funded by the PWROG and does not require a utility-specific contract.
- Ability to influence the selection and development of generic products, such:
 - TSTF Travelers, and
 - PWROG Technical Reports
- Access to the products created by the PWROG LSC, such as:
 - TSTF Regulatory Position Papers,
 - Licensing Committee white papers,
 - Survey results,
 - PWROG Technical Reports,
 - Reference and historical information through the EXCEL Services website or PWROG website
- Access to the Licensing documents (Technical Specifications, TRM, UFSAR, COLR, PTLR, ODCM, etc.) of other PWROG LSC members.
- Access to and participation in an on-line database of regulatory information, available at www.nukapedia.com and through the EXCEL Services Corporation website.
