

Marie Blanc

President
Outage & Maintenance Services
Westinghouse Electric Company

Marie Blanc is President of Outage & Maintenance Services at Westinghouse Electric Company. In this role, she leads the delivery of outage, maintenance, inspection, welding and refurbishment services for operating nuclear power plants in the Americas, EMEA and Asia regions.

Ms. Blanc returned to Westinghouse in 2024 – having spent more than 22 years in leadership within field services, fuel engineering, project delivery, procurement & logistics, quality and continuous improvement organizations.

Most recently, she served as Vice President and Managing Director at Xylem with oversight of sales and service operations for Eastern Europe. Earlier in her career, she worked at ABB in engineering and project management.

Ms. Blanc holds a Master's Degree in Mechanical Engineering from the Lunds Institute of Technology in Sweden with course work from ETH Zurich in Switzerland.
